

**LAKE MERRITT ROWING CLUB  
LOW LIGHT ROWING POLICY**

**Low Light Rowing:** Members not rowing with a team under coach supervision may row in low light only if they have been specifically approved by a coach who has observed them row for at least a full lap at night. When rowing in low light it is strongly recommended that people not row alone. Bright front and rear lights are required—The club has purchased several sets available for general use.

Approved 2/2/11
